

SustaPEEK tubes: Order now ex-stock

Large dimensions, low wall thicknesses, material-saving production

Providing you with an extensive variety of tubes made of high performance Victrex 450G polymer. Offering a very wide range of large and small diameters, with very low and high wall thicknesses for different application fields and individual requirements.

Outside Ø: 20 – 260mm
Inside Ø: 15 – 220 mm
Length: 160mm – max 3,000mm

SUSTAPEEK tubes allow the material saving production of seal rings, retaining rings and bushes.

Thanks to the unique SUSTAPEEK features, they are perfectly suited for applications that require excellent mechanical, thermal and wear resistance properties.
