

Extended stock program – Food Grade products in blue

More food safety with Food Grade products in blue from Specialist Engineering Plastics

From time to time food is thrust unintentionally under public scrutiny. For areas in which foodstuffs are processed by a large amount of automated machinery, foreign bodies are often the cause of recall actions.

Consequently, to **improve safety levels**, equipment manufacturers are increasingly equip their plants with **blue components**. Blue forms the greatest optical contrast with natural foodstuffs. This offers an additional safety benefit.
