

Do

- ▲ Cut down large pieces so they fit well inside the bag
- ▲ Make sure you have access to a fork lift truck for loading full bags
- ▲ Call **01476 574 476** when a bag is full and ready to be collected

Don't

- ▲ Mix plastic types; use a separate bag for each material type and colour
- ▲ It is strictly forbidden to deposit any type of chips, curls or swarf in the bags. Plastic residual materials may only be deposited in the recycle bags if they are free of chemical contamination. It is strictly forbidden to deposit other waste materials, such as wood and paper in the bag(s)
- ▲ When filling the recycle bag(s), it is expected that the materials are placed as efficiently as possible and no materials protrude through the side(s) or overflow

When you are ready for a collection, photos of the relevant bags must be sent for assessment to **sustainable@seplastic.com**

If the Planet Bags are not in accordance with these rules, SEP unfortunately cannot accept them. It is important that your employees are informed of the above rules.
